

LED T8 TUBE

Plastic & aluminum inside

Many advantages of LED tubes

- Saves 70% energy
- Contains no mercury
- Immediate light without flashes
- Small waste of natural resources
- The color rendering index > 80% Ra
- Life expectancy of at least 50,000 hours
- Low losses, integral reflector in the tube
- Low maintenance cost, long drain intervals
- Emits no electromagnetic fields or UV radiations

Model	FLED10W2FT-865
Length(mm)	600mm X 26mm
LED Qty(pcs)	48pcs
LED Source	2835 SMD LED CRI>80
Power(W)	10W
Guaranty	5 Years
Life Span	>50,000 hours
Input Voltage	100-277VAC
Lamp Efficiency	>110lm/W
Working Temp	-30°C ~ 40°C
Power Factor	>0.95
Materials	Full PC with Aluminum Alloy Inside
Lumen	>1100lm
Color	Daylight
Temp Color	5500-6500K
